GERMANY'S REPLY DODGES DEMAND

Of U. S. That Submarine Warfare Shall Stop.

DOES NOT DIRECTLY ANSWER

The American Representation Concerning Recent Sinking Of Lusitania.

THE FULL TEXT IS HERE GIVEN

The following is the full text of Germany's reply to President Wilson's recent note anent the sinking of the Lusitania, &c.:

"The undersigned has the honor to submit to Ambassador Gerard the following answer to the communication of May 15, regarding the injury to American interests through German submarine warfare:

"The Imperial Government has subjected the communication of the American Government to a thorough investigation. It entertains also a keen wish to co-operate in a frank and friendly way in clearing up a possible misunderstanding which may have arisen in the relations between the two Governments through the events mentioned by the American Government.

"Regarding, firstly, the cases of the American steamers Cushing and Guilford. The American Embassy has already been informed that the German Government has no intention of submitting neutral ships in the war zone, which are guilty of no hostile acts, to attacks by a submarine or submarines or aviators. On the contrary, the German forces have repeatedly been instructed most specifically to avoid attacks on such ships.

"If neutral ships in recent months have suffered through the German submarine warfare, owing to mistakes in identification, it is a question only of quite isolated and exceptional cases, which can be attributed to the British Government's abuse of flags, together with the suspicious or culpable behavior of the masters of the ships.

"The German Government, in all cases in which it has been shown by its investigations that a neutral ship, not itself at fault, was damaged by German submarines or aviators, has expressed regret over the unfortunate accident, and, if justified by conditions, has offered indemnification.

"The cases of the Cushing and the Guilford will be treated on the same principles. An investigation of both cases is in progress, the result of which will presently be communicated to the Embassy. The situation can, if necessary, be supplemented by an international call on the International Commission of Inquiry, as provided by Article III. of the Hague agreement of October 18, 1907.

"When sinking the British steamer Falaba, the commander of the German submarine had the intention of allowing the passengers and crew a full opportunity for a safe escape. Only when the master did not obey the order to heave-to, but fled and summoned help by rocket signals, did the German commander order the crew and passengers by signals and megaphone to leave the ship within ten minutes. He actually allowed them twenty-three minutes time, and fired the torpedo only when suspicious craft were hastening to the assistance of the Falaba.

"Regarding the loss of life by the sinking of the British passenger steamer Lusitania, the German Government has already expressed to the neutral governments concerned, its keen regret that citizens of their States lost their lives.

"On this occasion the Imperial Government, however, cannot escape the impression that certain important facts having direct bearing on the sinking of the Lusitania may have escaped the attention of the American Government.

"In the interest of a clear and complete understanding, which is the aim of both Governments, the Imperial Government considers it first necessary to convince itself that the information accessible to both Governments about the facts

of the case is complete and in accord.

"The Government of the United States proceeds on the assumption that the Lusitania could be regarded as an ordinary unarmed merchantman. The Imperial Government allows itself in this connection to point out that the Lusitania was one of the largest and fastest British merchant ships, built with government funds as an auxiliary cruiser and, carried expressly as such in the 'navy list' issued by the British Admiralty.

"It is further known to the Imperial Government from trustworthy reports from its agents and neutral passengers that for a considerable time practically all the more valuable British merchantmen have been equipped with cannon and ammunition and other weapons and manned with persons who have been specially trained in serving guns. The Lusitania, too, according to information received here, had cannon aboard, which were mounted and concealed below decks.

"The Imperial Government, further, has the honor to direct the particular attention of the American Government to the fact that the British Admiralty, in a confidential instruction, issued in February, 1915, recommended its mercantile shipping not only to seek protection under neutral flags and distinguishing marks, but also, while thus disguised, to attack German submarines by ramming. As a special incitation to merchantmen to destroy submarines, the British Government also offered high prizes and has already paid such rewards.

"The Imperial Government, in view of these facts indubitably known to it, is unable to regard British merchantmen in the zone of naval operations specified by the Admiralty staff of the German navy as 'undefended.' German commanders consequently are no longer able to observe the customary regulations of the prize law, which they before always followed.

"Finally, the Imperial Government must point out particularly that the Lusitania on its last trip, as on earlier occasions, carried Canadian troops and war material, including no less than 5,400 cases of ammunition intended for the destruction of the brave German soldiers, who are fulfilling their duty with self-sacrifice and devotion in the Fatherland's service.

"The German Government believes that it was acting in justified self-defense in seeking with all the means of warfare at its disposition to protect the lives of its soldiers by destroying ammunition intended for the enemy.

"The British shipping company must have been aware of the danger to which the passengers aboard the Lusitania were exposed under these conditions. The company in embarking them, notwithstanding this, attempted deliberately to use the lives of American citizens as protection for the ammunition aboard, and acted against the clear provisions of the American law, which expressly prohibits the forwarding of passengers on ships carrying ammunition, and provides a penalty therefor. The company, therefore, is wantonly guilty of the death of so many passengers.

"There can be no doubt, according to the definite report of the submarine's commander, which is further confirmed by all other information, that the quick sinking of the Lusitania is primarily attributable to the explosion of the ammunition shipment caused by a torpedo. The Lusitania's passengers would otherwise, in all human probability, have been saved.

"The Imperial Government considers the above-mentioned facts important enough to recommend them to the attentive examination of the American Government.

"The Imperial Government, while withholding its final decision on the demands advanced in connection with the sinking of the Lusitania until receipt of an answer from the American Government, feels impelled in conclusion to recall here and now that it took cognizance with satisfaction of the mediatory proposals submitted by the United States Government to Berlin and London as a basis for a modus vivendi for conducting the maritime warfare between Germany and Great Britain. The Imperial Government, by its readiness to enter upon a discussion of these proposals, then demonstrated its good intentions in ample fashion. The realization of these proposals was defeated, as is well known by the

declinatory attitude of the British Government.

"The undersigned takes occasion, etc. JAGOW."

Wilson Will Not Quibble.

Washington, May 31.—The United States will not argue with Germany over the Lusitania note. There will be no paroliers as to whether the ship carried explosives or guns. America will stand on her original demands and will ask Germany to reply to these demands or take the consequences. The attitude of this Government will go forward in a short note and promptly.

While no one knows from the President what he will do, now that the text of the German note has been handed to him, his closest associates are confident that the above represents his attitude.

The essence of his protest was that Germany desist from a naval practice which sent men, women and children to their death. The President feels that this dominating aspect of the American note has been utterly ignored by Germany.

The publication of the note has only served to increase the amazement of the Administration at the German position. Information has come to them that even the German Embassy is disappointed and embarrassed over the attitude assumed by the Imperial Government.

INDICTMENTS AGAINST A PROMINENT FARMER

Of Daviess County—John Berry Charged With Poisoning Livestock.

The Owensboro Messenger of Friday says:

John Berry, a large land owner in the West Louisville-Curdsville neighborhood, was indicted in Circuit Court on three charges of administering poison to livestock, from which the animals died. Bench warrants were ordered to issue at once and the bail was fixed, at \$1,500 in two cases and \$1,250 in the third, making a total bail of \$4,250. Punishment for the offenses charged in the indictments is from one to five years in the penitentiary for each count.

Berry was arrested about 5 o'clock Thursday afternoon by Deputy Sheriffs Ben Lancaster and James Howard, who immediately after the indictments were returned and bench warrants were issued, in an automobile. When apprised of their mission Berry had little to say, but submitted to arrest without question. Circuit Court being in session, the officers could not accept a bond for his appearance and he was brought to Owensboro and given into the custody of Jailer Howard. Berry is worth probably \$75,000 and has a family of five children, three of whom are grown and two almost grown. Four boys and one girl, the latter married, make up his family, besides his wife.

The indictments grew out of the poisoning of three horses, some months ago, of Esquire William G. Riney, his brother, Walter Riney, and Tave Vowels, at West Louisville. The stomachs of the three animals, which were of high value, were sent to the State laboratory at Lexington for examination. A report was received by wire Tuesday from the chemists to the effect that strychnine in large quantities was found in the stomachs. This information was produced before the grand jury.

LADIES OF MACCABEES CHANGE NAME OF ORDER

New York, May 29.—The Ladies of the Maccabees of the World changed their name in convention here this week to the Woman's Benefit Association of the Maccabees, received the refusal of their supreme commander, Miss Nina M. West, to accept an increase in salary to \$10,000 a year, considered a resolution recommending the espousal of woman suffrage by their 187,000 members and voted to proceed with the construction of a new home office building.

This building will be located in Port Huron, Mich., and will cost \$150,000, the sum to be raised from revenues from property already owned by the organization.

American foodstuff exports in the 10 months ended with April amounted to \$400,000,000 more than in the same period of the previous year.

CALLS A HALT ON MEXICAN WARFARE

Wilson To Serve Notice On All Factions.

POLICY OF WATCHFUL WAITING

To Be Changed—Food For Starving People Is First Consideration.

FORMAL NOTICE TO COME SOON

Washington, May 29.—Everything points to a change in the Administration's Mexican policy.

It is felt in well-informed circles that this was forecast when Secretary Tumulty to-night made a statement that the President will shortly have something important to say about Mexico. The only important thing he can say is either that peace has been restored or that peace must be restored. Since the former is manifestly untrue, there is widespread belief in official circles that the President's statement will take the form of a warning to the Mexican factional leaders to settle their differences at once or expect the United States to settle matters by force of arms.

The President anticipated his Mexican pronouncement to-day by issuing to the people of this country a call for food for the starving thousands in Mexico City and in the ravaged territory where constant fighting has been in progress for eight years.

Mr. Tumulty's unusual action in issuing a card that the President will make a statement, took the attention of Washington from the foreign situation and riveted it upon Mexico. It is felt that there may be sharp measures adopted by this Government and speedily toward the banditti who are now contesting for supremacy in Mexico, and in order to do this, of course, the army and navy would have to be dispatched.

That a change of policy is about to be initiated seems certain. That "watchful waiting" is about over is not doubted. But concerning the form of the President's awaited statement there is much difference of opinion.

The first intimation of the President's determination came to-day in his appeal issued as head of the American Red Cross, setting forth that "due to several years of internal disturbances, the unfortunate people of many parts of Mexico have been reduced to the verge of starvation," and urging contributions to relief funds.

Later the White House gave out the following:

"When the President's appeal for aid for the Mexicans was issued, it was also stated at the executive offices that a statement from the President on the recent situation in Mexico might be expected within the next few days."

This statement has been prepared and will be issued after the Cabinet meeting next Tuesday, and then communicated to the leaders of all the Mexican factions.

Officials at the White House and State Department declined to say what the President's statement contained, but denied that recognition of any faction was now contemplated. It was stated authoritatively that while friends of Carranza here had been pressing for recognition, the Washington Government had not been impressed with the ability of any of the contending chiefs to restore order. The present action, it was said, was not intended to assist one faction at the expense of another, but to demand, in effect, that the Mexicans arrive at an early settlement of their troubles or at least provide for the sustenance of the starving population.

High officials referred to the President's forthcoming pronouncement as not meaning immediate intervention and they emphasized the word "immediate." The impression in executive quarters was that one purpose would be to place responsibility for the present state of affairs squarely upon the military elements in the Southern republic, which have overrun the country and appropriated its food supply or prevented the tilting of the soil.

While anxious to continue the

policy of allowing the Mexicans to settle their differences without outside interference, the President is said to be determined that the civilian population of the country shall not be starved in the meantime.

SHAKERS ASK RECEIVER FOR A COAL COMPANY

Hopkinsville, Ky., May 29.—Logan Johns, Mary Wand and Lucilla Booker, trustees of the Society of Shakers, of South Union, Ky., have filed suit here asking that a receiver be appointed to take charge of the property and affairs of the Terry Coal & Coke Company, which owns valuable coal deposits between Empire and Mannington, in this county. The suit is based on the representation that the plaintiffs own \$3,000 worth of bonds issued by the coal company which, it is alleged, have never been paid and on which the interest has been defaulted since April 1, 1910.

Also that they own 550 shares of the par value of \$1 each of preferred stock and 1,100 shares par value of \$1 each of the common stock in the corporation. They therefore sue both as creditors and stockholders. They allege that the company owes between \$20,000 and \$26,000, and that some court judgments have not been satisfied and that it is hopelessly insolvent.

SECOND APPEAL IS NOW ISSUED BY RED CROSS

People In Distress In Many Sections of Country, Is Reported.

Washington, May 31.—Reports of hunger and suffering poured into American Red Cross headquarters to-day from all parts of Mexico. Supplementing its appeal to the American people for aid, the Red Cross sent a telegram to the Governor of every State which read:

"There are a large number of unfortunate people in Mexico facing death by starvation and the President of the United States and the American Red Cross make an appeal for money and food supplies. Gifts of corn, beans, rice and flour will be accepted at any point in the United States and forwarded by the Red Cross to Mexico through the most practicable route to reach the people in distress.

"Money may be sent to local Red Cross headquarters or to Red Cross headquarters in Washington. Before donated supplies are sent from any point, instructions from Washington will be furnished for routing. The most practicable waterway into Mexico at the present time and under the present conditions are Vera Cruz (via Galveston), Brownsville, Laredo, Eagle Pass and El Paso, Tex., and Nogales, Ariz."

While supplies can enter Mexico through these gateways, the question of whether the Carranza or Villa military forces, as the case may be, will interfere, is still bothering officials. A carload of corn and a carload of beans already are on the way, on assurance of railroad officials that they will go through safely. This will give Monterey three or four days' food supply.

H. W. Catlin, who is interested in a plantation south of Mexico City and recently arrived from Vera Cruz, told Red Cross officials to-day that beans were being shipped from Vera Cruz to Cuba, while people are starving five miles outside of the Carranza capital. There were practically no food supplies to be purchased in Mexico City, he said, and on his plantation people had cut the corn before it was ripe in desperation.

Catlin said only a few miles of track had been torn up on the road between Mexico City and Vera Cruz and that no bridges are down.

Order To Cut Your Weeds.

There is an ordinance against people allowing weeds to grow in front of their premises in Hartford. All citizens are hereby warned to observe this ordinance and cut their weeds at once, and also clean up their premises.

Beaver Dam Beats Cromwell

Beaver Dam, Ky., May 29.—Listen to this! Beaver Dam base ball team didn't do a thing to the Cromwell bunch this afternoon! Took hold of them right at the beginning and what they did to them was a plenty. The score was 28 to 3.

Pitcher Koontz, Beaver Dam's star twirler and only southpaw, was in great form. Owing to the game being a one-sided affair, Manager Hocker pulled his star twirler out of the game in the 7th inning and brought Pitcher Pirtle in, and he also showed great form against them.

FINE HORSES MUTILATED WHEN BEING SHIPPED

Mattoon, Ill., May 29.—Twenty-four fine horses that had passed rigid inspection and were being shipped to the allied armies in Europe, over the Big Four Railway, were found this morning with their hamstrings cut and the entire carload had to be killed.

Every horse in the car was mutilated, evidently by a set of men who worked with razors, or some equally sharp instrument attached to a pole.

Those horses had been especially selected for cavalry work.

Well Deserved Selection.

It has been announced by the University of Mississippi that Mr. Raymond W. Tinsley, a well known Hartford boy, has been selected as instructor of modern languages in that institution. Mr. Tinsley is now taking special work in the University of Illinois and has had work in a German University of world-wide recognition, he having been forced to leave that country when the war broke out. He will be home soon for a two-week's visit, after which he will go to Milwaukee, Wis., for some more special work and will take up his new duties at Oxford, Miss., in September.

Young Mr. Tinsley is a very able teacher of languages, having formerly filled that position in Hartford College, and well deserves the recognition he is receiving from eminent heads of educational institutions.

Bloomer Girls At Beaver Dam.

The "Star Bloomer Girls" will play at Beaver Dam, Ky., on Saturday, June 5. These girls are playing a great game of ball and Beaver Dam has a strong lineup also. This is expected to be a great affair. Game called at 2:30 p. m.

Prepare For Advanced Standing In Music Before Going Away To School.

If you intend going away to school and studying music you need at least a few lessons to prepare you for the new fields of work you will find there. I have made a special study of piano for the past three years—two years at National Park Seminary, Washington, D. C., and this last year at the New England Conservatory, Boston, Mass. Here at the conservatory I am studying under the head of the Normal Department and am having special instruction in teaching. I can give you a good foundation in the best and most scientific methods as taught here at the conservatory and can fit you to enter as an advanced student rather than a beginner.

I shall teach piano and voice with the necessary Harmony and Solfeggio lessons in addition.

I shall gladly answer any questions in regard to lessons, if you are interested. MARY FELIX.

COOPER SHARES PART OF TANLAC PROFITS WITH KENTUCKY POOR; DOES NOT DESIRE GREAT RICHES.

"Tanlac Man" Distributing Thousands of Loaves of Bread to Charitable Institutions of Louisville and State—More Than 30,000 Bottles Premier Preparation Sold in Louisville in Eight Weeks.

OVER-EATING MAN'S GREATEST ENEMY.

Louisville, Ky., May 31.—Never before in the history of Louisville has the sale of a proprietary medicine reached one-half the total of the amount of Tanlac purchased in this city within the last few weeks.

More than 30,000 bottles of this premier preparation have been sold in the last eight weeks in Louisville by the Taylor-Isaacs Drug Company and associate stores, under the personal direction of Mr. L. T. Cooper, the Tanlac man.

The success of Tanlac in Louisville—although it was expected to be as great here as it has been in other large cities of the United States—has surpassed the most extravagant expectation of Mr. Cooper, local druggists and all persons familiar with the drug business.

Men and women from all walks of life are among those who have tried Tanlac and who have been benefited by its use.

Bankers, lawyers, judges and druggists are among the vast number who are now using Tanlac. It is estimated conservatively that more than 150,000 Kentuckians are now taking Tanlac with the most beneficial results. Druggists from all sections of the State are writing, telephoning and telegraphing the Tanlac offices in Louisville for rush orders of the medicine, declaring in many instances that the medicine is meeting with an unprecedented demand in their respective cities, towns and villages.

Orders are being received from the most remote sections of the State, the fame of Tanlac having spread to every hamlet and cross-roads store.

Mr. Cooper has decided to remain indefinitely in Kentucky and while here will continue his philanthropic work begun last January when hundreds of the worthy poor of Louisville were provided with food and other necessities of life.

He is now sending thousands of loaves of bread weekly to such charitable organizations as the Sisters of the Poor, Associated Charities, Hope Rescue Mission and Salvation Army, in Louisville, and orphanages and similar institutions in Lexington, Paducah and Owensboro.

"Most of the ailments attacking mankind to-day are due to man's faulty methods of living," Mr. Cooper said. "A large per cent. of the men and women of to-day are inclined to over-indulgence in both eating and drinking. Man who is a slave to his stomach must suffer the consequences sooner or later, and those consequences are faced earlier usually than he expects. By curbing the appetite and the use of Tanlac most of the diseases attacking the vital organs can be conquered. Over-eating is the worst enemy the American people have to-day.

"Catarrh of the stomach is one of the most prevalent forms of disease in Kentucky to-day. There are thousands of Kentuckians suffering from this trouble who are unaware of what their ailment is.

"People who are nervous and irritable, have imperfect digestion, stomach disorders, lack energy and ambition, feel melancholy and discouraged, suffer from backache and headache, poor memory, unsound sleep, irregular circulation, pallid complexion and who are susceptible

to coughs and colds, are unquestionably suffering with catarrh and kidney and liver trouble. The principal mission of Tanlac is to correct that very trouble.

"Severe stomach, kidney and liver troubles often are caused by catarrhal inflammation of these organs. The constant coughing up of mucus, sniffling, dropping from the nose and pains in the ears, throbbing headaches, pains in the pit of the stomach, side and kidney region, loss of appetite, no ambition, depression of spirits and the constant contracting of colds, are characteristic symptoms of this trouble from which so many thousands of Kentuckians and others are suffering.

"Tanlac was designed to bring about an astonishing improvement in your spirits, appetite and general condition.

"In the springtime when so many men and women are suffering from the after-effects of winter coughs, colds, pneumonia, la grippe, catarrh of the throat and bronchial troubles and are in a generally run-down condition, the use of Tanlac will prove of especial benefit as an upbuilding tonic.

"My suggestion is that such persons take the full course of treatment of six bottles."

Tanlac is sold in Hartford by The Ohio County Drug Co., and in Beaver Dam by Z. Wilbur Mitchell.

"Words Fail Me" Says Young Lady

Louisville, Ky., June 1.—"Words fail me in attempting to describe my gratitude for the benefits I have derived from the use of Tanlac," said Miss Clara Butler, a prominent young woman of Broden, Ind., who is visiting friends in Louisville.

"I have not enjoyed the very best of health for several months," Miss Butler continued. "I was all run down and so nervous that the least excitement made me almost frantic. My digestion also was very poor, and very often I found myself unable to partake of the very lightest liquid food.

"I am glad that I decided to take Tanlac. The medicine certainly is very fine. I have been benefited in every way and always shall think well of Tanlac."

Tanlac is sold in Hartford by The Ohio County Drug Co., and in Beaver Dam, by Z. Wilbur Mitchell.

Efficient Nurse Finds Assistance

Louisville, Ky., June 1.—Mrs. Anna L. Bryan, an efficient trained nurse, who resides at 301 Crescent Court, Crescent Hill, Louisville, recently made the following statement regarding the famous medicine Tanlac:

"I find Tanlac very fine. I have been using it for more than a week for gastritis. I have been treated by several physicians with very poor results. At times I vomited blood and I lost weight steadily.

"I find Tanlac has given me relief. I wish Tanlac success."

greens elevation it rises more than two miles above the loftiest mountain, higher than man can mount in a balloon and live, before it begins to descend.

The fire that wrecked the Antwerp forts was delivered with much more accurate aim, almost vertical, at fairly short range. The great guns of warships cannot be elevated more than 15 degrees. This is one reason why the allies landed unopposed at the Dardanelles. Plunging fire from batteries at closer range should be more effective against Turkish forts than the big guns of the Queen Elizabeth. No warship could shell New York from a distance at sea equalling the range of land artillery.

It is hard to hit a small mark at

DRUGGIST PLEAS WITH TANLAC SALE

More Than \$30,000 Worth Bought in Louisville in 90 Days.

Louisville, Ky., June 1.—E. G. Isaacs, President of the Taylor-Isaacs Drug Co., of this city, says: "The demand for Tanlac has agreeably surprised us. While we knew Mr. Cooper and were aware of the success his preparation had achieved in other cities of the country, yet we entertained no idea that the medicine would become so popular in such a short space of time in Louisville.

"Judging from the repeat sales, and the expressions of satisfaction from those who have tested Tanlac and who state that they have been benefited by the preparation, Tanlac must therefore be something of unusual merit.

"The class of people who are buying Tanlac are among the best in the city—people who are able to judge impartially and who carry weight with their statements.

"Within the last 90 days we have sold over \$30,000 worth of Tanlac. When it is considered that the demand is confined to one preparation the sale is to be considered unprecedented. In fact, it is the highest thing of the kind ever seen at our stores."

Tanlac is sold in Hartford by The Ohio County Drug Co., and in Beaver Dam, by Z. Wilbur Mitchell.

OLDEST STREET CAR EMPLOYE TESTIFIES

Louisville, Ky., June 1.—Pat Lally, well known inspector for the Louisville Street Railway Company and an employee of that firm thirty-seven years, has this to say about Tanlac, the premier preparation: "I have suffered from stomach trouble, which developed gradually into a general debilitated condition. I had indigestion, and my food didn't taste quite right. When I got up in the morning I had a disagreeable taste in my mouth, was constipated, there was a fullness in my head, and I had no desire for breakfast.

"I was tired all the time and pulled myself through my day's work with the greatest effort. As soon as I had taken a half bottle of Tanlac I began improving. When I awaken in the mornings I feel refreshed. My appetite also is good and my food agrees with me. That tired feeling has left me and I am buoyant and feel like a new man."

Tanlac is sold in Hartford by The Ohio County Drug Co., and in Beaver Dam, by Z. Wilbur Mitchell.

WORTH \$1,000 TO FORMER "ICE KING"

Louisville, Ky., June 1.—John Rohman, known to almost everybody in this city as the "Ice King" of Louisville, is among the large number of persons who have used Tanlac with the most beneficial results. Mr. Rohman said:

"Less than two weeks ago, I obtained this Tanlac. The medicine was just what I needed. It went straight to the spot. I strengthened right up. My appetite is improved as well as my sleep. If I had paid \$1,000 for the medicine it would have been worth that to me. The anticipation of taking the next dose of Tanlac is a real pleasure."

half a mile, and harder to hit a big one at twenty miles. The Germans are probably satisfied, without having accomplished a military object, with the moral effect of their feat—and there is always a chance that a great shell may hit a vital spot. Our army experts say that a range of 30 miles is possible with present-day ordnance. Thus Constantinople might be bombarded from the shore of the Black Sea, Trieste from Italian soil, Genoa from Gibraltar, Sardinia from Corsica, Dover from Calais. This is why the German shots at Dunkirk were heard around the world.—(New York World.)

MAYORS AND JUDGES NOW TAKING TANLAC

Premier Preparation Proves Very Popular, Says Druggist.

Lexington, Ky., June 1.—"I have sold Tanlac since the beginning of its introduction in Lexington, to the Mayors of a number of cities, County Judges, Circuit Judges, and to many of the most prominent business and professional men in Kentucky," says Wm. E. Stagg, the Lexington druggist.

"The demand for the preparation has been phenomenal. In all of my twenty years' experience in the drug business I have never seen anything that equals it.

"I can only account for the great demand for this preparation by the fact that it is a good medicine. That is proven by the numerous statements from those who have tested the medicine and are now convinced of its excellent merits. The public has evidently not been slow to appreciate the Tanlac merit.

"Practically \$20,000 worth of Tanlac has been sold and distributed through my store within the past few weeks. Such a demand is most certainly unprecedented.

"My association with Mr. Cooper and the agency for Tanlac has been very pleasant. I take pleasure in commending Mr. Cooper and his very excellent preparation."

Tanlac is sold in Hartford by The Ohio County Drug Co., and in Beaver Dam, by Z. Wilbur Mitchell.

Woman Had Dread For The Future

Louisville, Ky., June 1.—Mrs. Frank Pettis, wife of the well known assistant chief electrician of the Louisville and Nashville railroad, who resides at 600 Camp street, Louisville, is among the many women, who have found speedy relief from serious illness by the use of Tanlac. Mrs. Pettis said: "I have been in a nervous, run-down condition some time. My digestion was very poor, and I had difficulty in eating solid foods. I was so depressed in spirits at times that I almost had a dread for the future.

"Tanlac proved to be just what I needed. The medicine acted like a general tonic for me. I am improved in every way, and I very cheerfully endorse Tanlac."

Tanlac is sold in Hartford by The Ohio County Drug Co., and in Beaver Dam by Z. Wilbur Mitchell.

Would Have All Women To Know

Louisville, Ky., June 1.—Mrs. George Kelley, residing at 199 Harrison avenue, Louisville, made the following statement regarding Tanlac:

"I have been under a physician's care eleven years. I suffered principally from indigestion and stomach trouble, with frequent nervous headaches, and felt worn out all the time.

"I weighed many pounds lighter than usual when I began taking Tanlac. After using Tanlac three weeks I now weigh several pounds more than I ever weighed. In fact, I have gained rapidly in every way in a comparatively short time.

"Tanlac is really the only thing that has actually helped me. I wish to recommend its use to every suffering woman."

Chocolate Circles—One-half cupful butter, one-half cupful grated chocolate, two cupfuls sugar, one cupful flour, one-half cupful milk, one teaspoonful vanilla, one teaspoonful baking powder, one egg, one-half saltspoonful salt. The success of these cakes lies in getting them thin and crisp. Cream the butter and sugar. Mix in the chocolate, flour, milk, baking powder and salt. Fold in the well-beaten egg and add the vanilla. Roll very thin. Cut into circles and bake in a quick oven.

Maple or Brown Sugar Cakes—

COOPER EXPLAINS WHY TANLAC IS POPULAR; ELEMENTS OF MEDICINE FOUND IN REMOTE PARTS OF EARTH.

Says Success Of Premier Preparation In Kentucky Is Due To Fact That Remedy Contains Real Merit—Product Is Result Of Years Of Experimenting On Part Of Most Famous German Chemist In This Country.

DEMAND FOR TANLAC WAS EXPECTED.

Louisville, Ky., June 1.—If I have been successful with Tanlac," said L. T. Cooper, "it is because the preparation contains real merit.

"Tanlac is the result of many years of arduous study by my principal chemist. In fact, the two of us have carefully watched its development from the beginning of the experimental tests to its present high state of efficiency.

"Ever and anon, someone suggests something that may tend to better our conditions, whether it may appertain to our health, our business or our sociological state. It has, therefore, been my pleasure this time to offer to the world Tanlac.

"When I came to Kentucky I stated that the success of Tanlac would be as great in this State as it has been elsewhere. I offered Tanlac on its merits, knowing full well that it would prove satisfactory if properly tested.

"It is true that the demand for Tanlac has been large, but no larger than I expected. Kentucky is only awakening to the appreciation of the full value of such a preparation. Tanlac's success in Kentucky is destined to be still greater."

The ingredients, or medicinal elements which compose Tanlac are gathered from many remote sections of the earth. The Alps, Apennines, Pyrenees, Russian Asia, Jamaica, Brazil, West Indies, Mountain States near the Rockies, Asia Minor, Persia, India, Russia, England, France, Germany, Mexico, Colombia and Peru are among the points from which the principal properties of this remarkable preparation are obtained.

In the principal laboratory of the Cooper Medicine Company, Inc., under the efficient direction of Herr Joseph von Trimbach, a native German chemist, these medicinal herbs, barks and flowers are assembled in the rough and painstakingly developed so as to obtain of that high standard of efficiency shown by the uniform preparation Tanlac.

In sterilized bottles made expressly for the purpose, Tanlac is placed, labeled and cartoned. The preparation is inspected again, and then crated for shipment to points over the world where the demand requires.

Colonel Coyne Praises Tanlac

Louisville, Ky., June 1.—Col. Joseph Coyne, one of the best known general contractors in the South and builder of many miles of hard-surfaced streets and roads in and around Louisville, who resides at 438 South Fifth street, this city, has added his words of commendation to those of thousands of others praising Tanlac. He said:

"My kidneys have annoyed me for a number of years. I suffered great pain as a result. I also suffered periodically from rheumatism, the condition affecting various parts of my body. I walked with great difficulty and could not use my hands naturally. I suffered from a pain in the ball of my foot fully ten years. That pain has disappeared. My kidneys are greatly improved."

Two cupfuls sugar, two cupfuls flour, one-half cupful milk, two eggs, one-half cupful butter, one cupful brown or maple sugar, two tablespoonfuls baking powder, one teaspoonful vanilla. Cream the butter and sugar. Stir in the vanilla and beat the mixtures well. Drop by teaspoonfuls onto a pan and bake in a moderate oven. Ice with maple frosting. If you have no maple sugar, brown sugar may be used.

Lemon Snaps—One cupful butter, two cupfuls flour, two teaspoonfuls soda, three eggs, one lemon. After creaming the sugar and butter, add the well-beaten eggs. Stir in the flour and soda, which has previously been dissolved in one-third cupful of hot water. Add the lemon juice,

and my rheumatism has virtually disappeared. My strength has returned, and my appetite and sleep have improved. I feel vigorous and healthy, and attribute the change to the use of Tanlac only. The medicine is all right. I recommend and commend it."

Deputy Sheriff Gives Testimony

Louisville, Ky., June 1.—Denney J. Heffernan, the popular and efficient deputy sheriff, made an interesting statement recently of how he was benefited by Tanlac, the premier preparation now being sold in Louisville. Mr. Heffernan, who is attached to the Criminal Court of Jefferson county, said:

"This is to certify that I have been using Tanlac for nervous debility. Tanlac has benefited me and I find it a very excellent medicine."

HART FEELS LIKE A BRAND NEW MAN

Louisville, Ky., June 1.—W. S. Hart, the well known floor manager for the Woolworth Five and Tenth store, on Fourth street, testified recently to the great merits of Tanlac. He said:

"Tanlac has made me feel like a new man. I used the medicine for rheumatism. I certainly do recommend it."

River Pilot Tells How Relief Came

Louisville, Ky., June 1.—Capt. T. J. Oatman, one of the oldest and best known river pilots in Louisville, who resides at 308 South Sixth street, adds his testimony to the hundreds of others in Louisville who have gained relief by the use of Tanlac. Capt. Oatman said:

"I have been afflicted with stomach disorders and catarrh many years. My condition became so serious that I lost my appetite, foods of a solid nature always causing great discomfort and pains in the abdomen.

"My catarrh also became worse, and every damp, cool morning I would get up with a choking sensation in my throat and a fullness of my head. I coughed up mucus and went about sniffling most of the time.

"I tried Tanlac and found it was the best thing I had done in many years, as it helped me from the first dose. My catarrh has virtually disappeared and my stomach is strong and feels right. I cannot praise Tanlac too highly."

WAR AT TWENTY MILES IS A MODERN PRACTICE

Shot Fired at Such a Range Is Nearly Two Minutes On Its Way.

The French estimate of the distance from which the Germans dropped shells in Dunkirk is 2 1/2 miles. Fire at such range has long been a topic of popular interest as a possibility. It is now a fact.

Traveling swifter than a rifle ball, a shot fired at such range is nearly two minutes on its way. At 45 de-

grees elevation it rises more than two miles above the loftiest mountain, higher than man can mount in a balloon and live, before it begins to descend.

The fire that wrecked the Antwerp forts was delivered with much more accurate aim, almost vertical, at fairly short range. The great guns of warships cannot be elevated more than 15 degrees. This is one reason why the allies landed unopposed at the Dardanelles. Plunging fire from batteries at closer range should be more effective against Turkish forts than the big guns of the Queen Elizabeth. No warship could shell New York from a distance at sea equalling the range of land artillery.

It is hard to hit a small mark at

half a mile, and harder to hit a big one at twenty miles. The Germans are probably satisfied, without having accomplished a military object, with the moral effect of their feat—and there is always a chance that a great shell may hit a vital spot. Our army experts say that a range of 30 miles is possible with present-day ordnance. Thus Constantinople might be bombarded from the shore of the Black Sea, Trieste from Italian soil, Genoa from Gibraltar, Sardinia from Corsica, Dover from Calais. This is why the German shots at Dunkirk were heard around the world.—(New York World.)

UNCLE SAM NOW RICHER'N ANYBODY

Wealth Of United States
Exceeds

THAT OF ANY OTHER NATION

In the World—Wonderful
Gain In Less Than Two
Thirds Of Century.

THE WEALTH OF A FEW STATES

Washington, May 24.—The national wealth is officially estimated at \$187,739,000,000, or \$1,965 for each man, woman and child in the country. Such are the figures contained in the special bulletin, "Estimated Valuation of National Wealth, 1850-1912," which is about to be issued by Director Samuel L. Rogers, of the Bureau of the Census, Department of Commerce.

In less than two-thirds of a century—from 1850 to 1912—the total wealth of the nation, excluding exempt real estate, increased from \$7,136,000,000, or \$308 per capita, to \$175,426,000,000, or \$1,836 per capita, the percentages of increase being 2,358 for the total and 496 for the per capita amounts. In other words, the wealth of the nation as a whole is nearly twenty-five times as great as it was in 1850, while that of the individual is about six times as great.

The exempt real estate, which was estimated at \$12,314,000,000, or \$129 per capita in 1912, includes the buildings, other structures, and public works owned by the Federal, State and local governments, with the land on which they stand, together with such real property of educational, charitable and religious institutions as is exempt from taxation.

Some of the items which make up the 1912 total are the following:

Taxed real property	\$98,363,000,000
Exempt real property and improvements	12,314,000,000
Railroads and their equipment	16,149,000,000
Manufactured products (other than clothing and personal adornments, furniture, vehicles and kindred property)	14,694,000,000
Furniture, vehicles and kindred property	8,463,000,000
Live stock	6,238,000,000
Manufacturing machinery, tools and implements	6,091,000,000
Agricultural products	5,240,000,000
Street railways	4,597,000,000
Clothing and personal adornments	4,295,000,000
Gold and silver coin and bullion	2,617,000,000
Privately owned central electric light and power stations	2,009,000,000
Shipping and canals	1,491,000,000
Farm implements and machinery	1,368,000,000
Telephone systems	1,081,000,000

The total wealth of New York, \$25,011,000,000, is the greatest shown for any State, while Illinois and Pennsylvania, with \$15,484,000,000 and \$15,458,000,000, respectively, are close rivals for second place. Other States which rank high in total wealth are Ohio, with \$8,908,000,000; California, \$8,464,000,000; Iowa, \$7,868,000,000; Texas, \$6,860,000,000; Massachusetts, \$6,303,000,000; Missouri, \$5,842,000,000; New Jersey, \$5,743,000,000; Minnesota, \$5,547,000,000; Michigan, \$5,427,000,000, and Indiana, \$5,195,000,000. No other State is credited with as much as \$5,000,000,000.

The latest published estimate of the wealth of foreign countries show \$108,280,000,000 for British Empire in 1903, of which amount \$72,997,000,000 was credited to the United Kingdom. The estimate for the United States in 1904 was \$107,104,000,000. The wealth of Germany in 1908 was estimated at \$77,864,000,000. Comparable estimates are not available for other nations.

Troubles of an Editor.
Henry Watterson told this story at a recent dinner party:
"One day when I was the city editor of a small newspaper, a fine turkey was left at the office. We all hunkered after the bird. The editor finally claimed it, took it

home, and had it cooked for dinner. The next day a letter was handed to him, which he opened and read:

"Mr. Editor: I sent you a turkey yesterday which had been the cause of much dispute among us. To settle a bet, will you please state in to-morrow's issue what the turkey died of?"

SOME HAIR-SPLITTING IN THE "RED TAPE" LINE

Washington, May 29.—Here is an example of Governmental "red tape."

An official of the Department of Agriculture was sent to Florida recently on departmental business. He found himself on one side of one of the numerous inks in that State when he had business on the other side of the lake.

He paid a native 50 cents to row him across the lake. To go to the same destination by carriage or automobile would have cost \$6.

When the expense account of the official was examined by the Auditor for the department the item of 50 cents was disallowed, on the ground that the trip to Florida did not normally include "water travel." Had the official spent \$6 for carriage hire he would have been reimbursed. He had to pay the 50 cents from his own pocket.

TANLAC'S GREAT ROMANCE REVEALED TO THE WORLD

Premier Preparation's Popularity Unprecedented in Business History.

Louisville, Ky., June 1.—The growth and development of Tanlac, the new remedy being introduced in Kentucky, is a romance of the business world. The amazing popularity which this remedy has achieved within a short time is almost incredible to those not actually familiar with the figures.

More than 150,000 Kentuckians are now taking Tanlac, although it was only introduced in Lexington last October and here in January. So great are the demands for it that the laboratories at Dayton, O., where the remedy is prepared, must be enlarged.

These laboratories are now capable of turning out 9,000 bottles of Tanlac daily under normal conditions, 10,000 under the highest pressure consistent with the great care used in the medicine's preparation. To meet the unexpected large sales, it will be necessary to enlarge the plant and to increase the working forces.

L. T. Cooper, the noted expert on hygiene and hardly less famous philanthropist, known here as "The Tanlac Man," was himself surprised at the tremendous popularity his remedy won in Kentucky, he said recently, and the more gratified at it because he is himself a native Kentuckian. The medicine is being sold now in all parts of the State. Mr. Cooper expected large sales, on account of the record the medicine established in the East, but he was unprepared for the big successes here.

The ingredients of Tanlac are gathered from all parts of the world. One of them has never before used in a medicinal preparation. They are taken to the laboratories at Dayton and there compounded with scrupulous care, so that every bottle shall be uniform.

Tanlac is used and has proved highly beneficial, as hundreds of Kentuckians have testified in cases of catarrh, rheumatism, coughs and colds, malaria, liver and kidney and stomach troubles, and the after effects of pneumonia.

U. S. SENATORSHIP IS A BAD HANDICAP

For One Aspiring To the
Presidency.

A FEW NOTABLE PRECEDENTS

Which Embrace Some Past
History In Line Of Presidential Affairs.

FRONT NAME SEEMS POPULAR

Certain fatalities cling to Presidential candidates which would delight the soul of a gypsy fortune teller. Now that Presidential boucs are beginning to flourish like skunk cabbage after a hard winter, it may interest you to recall some of them.

A United States Senatorship is a fearful handicap. Pennsylvania's only President had been a Senator, but that was years before he went to the White House. Andrew Johnson was a Senator, but he was sent to the Presidency by an assassin's bullet and not by ballots.

Since Buchanan's day, Benjamin Harrison was the only man elected President who had got into the Senate. Garfield was a Senator-elect, but had not yet appeared in the north end of the National Capitol. Blaine was a Senator, but "Rum, Romanism and Rebellion" beat him for President.

This Senatorial hoodoo is respectfully referred to Senators Root, Cummins, Borah, Weeks, et al., who have been spoken of as suitable tenants of the very desirable residence now occupied by Woodrow Wilson.

See what happened to Henry Clay! He was so precocious that Kentucky ignored the Constitution of the United States and sent him to the Senate before he was 30 years old—the only case on record of a Senator's breaking the minimum age limit.

But he never could reach the White House, although he possessed the abbreviated name which is an omen of Presidential preference. Long names are not more popular with the voters than are Senators.

McKinley, Cleveland, Harrison, Roosevelt and Wilson are all one-name Presidents. And contrast, if you please, the two Harrisons. The elder was one of only two Presidents in all time who habitually were called by their three names—William Henry Harrison and John Quincy Adams.

But Grandfather Harrison was President only 30 days, so that the long-name fatality followed him even after election.

The happiest combination seems to be a Governor with one "front" name. Hayes, Cleveland, McKinley, Roosevelt, Wilson—five Governors, of whom four sported but one cognomen. However, it seems better to have a long name than be Senator, since in 50 years Grant, Hayes and Taft have received the coveted Presidential honor, although burdened with 50 per cent. more name than two-thirds of our Presidents have carried, while no man has stepped directly from the Senate to the White House.

It is only a mile from the Senate chamber to the Executive Mansion. It must have seemed a million to the aspiring legislators in the upper branch of Congress who attempted to traverse that short space.—[Philadelphia Ledger.]

SUMMONS OF DEATH IS THE SUBLIME ADVENTURE

This country may well be proud of how, when occasion demands, her citizens know how to die. Men who have everything to live for, some of them possessed of all that is supposed to make life most worth living, have on the Titanic and the Lusitania faced death with a quiet dignity that is an inspiration for all time. Their thoughts for others rather than themselves at the supreme moment are examples never to be forgotten.

who knows the value of life knows how to die becomingly. Nothing reveals the significance of a man's life more than the manner of his leaving of it. There is no more precious lesson to be learned from living than how to give up life when the hour comes, and if it comes in the midst of conscious forgetfulness of self and thought for others, then indeed existence is nobly completed.

Many may tremble at death naturally, but men do not fear to die. Physicians who have been at many a deathbed know that death is, as a rule, far from the terrifying thing it is often supposed to be. "Life is a dangerous thing at best," it has been said, "and few of us get out of it alive." When men meet the end calmly as the next great adventure after birth, humanity cannot but look on with admiration to feel lifted up by the event. Death then literally crowns life, not merely ends it.—[New York Herald.]

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

These are days when all of us who can truthfully say so ought to feel glad in the realization that we were born in the United States.

Col. Theodore Roosevelt broke one of his ribs one day last week. No—he didn't do it in the effort to do some political stunt "or break a rib." He was trying to mount a horse when the accident occurred.

The Philadelphia Inquirer, in summing up the Roosevelt-Barnes libel suit, says, as it understands it, "Colonel Roosevelt considered it only a question of veracity between himself and another prevaricator."

The recent courts of inquiry into the illicit sale of liquor have done much good in this community. They should never cease until the stigma of the blind tiger and the bootlegger is driven entirely from our midst.

Rev. Martin S. Brennan, a noted astronomer of St. Louis, declares that the continuous explosions of big guns along the battle fronts of Europe are causing the heavy rain-falls in the United States. Wish they'd cease their shootin' long enough for us to get crops started here in Ohio county.

An unarmed mob recently passed through the streets of Vera Cruz shouting: "We don't want any more revolutions! We want work and bread!" What a pity that war-torn Mexico should continue its internecine strife in the face of this heart-felt cry! It would seem that the few leaders of this rather small but barbarous and continuous warfare ought to soon come to their senses if they expect to have any country left worth the name.

Mrs. Frances E. Beauchamp, of Lexington, Ky., State President of the Woman's Christian Temperance Union, says that the election of a Governor is not the prime temperance issue in the Kentucky campaign, but rather who will represent the people in the next Legislature. Mrs. Beauchamp is right. Any State-wide legislation that may be enacted into law will not demand the approval of the Governor nor will it admit of his veto. But some of the politicians would have the voters think otherwise.

It is a common thing in the life of almost every newspaper editor to once in awhile be urged by some one to take up a certain matter and push it through his paper. "It's important," say his advisers, "and you ought to come out strong on the subject." Now there are plenty of people besides editors who can write. Their articles would be read just as quickly as if coming from the editorial pencil. The editor's boosting of public matters has gotten to be so common that no doubt somebody else's would be more appreciated. We would be glad if more of our readers than do, would "take the pen in hand" on matters concerning the county or public.

There is no excuse for anybody running a blind tiger, bootlegging or running a disorderly house, in this or any other community, only the desire to make an easy living at good profits. Nine out of ten people convicted of the above charges are abject, intelligent and ca-

pable of making a good living in a lawful and honorable way. They do nothing only court trouble from the time they enter the shadowy business until they are sooner or later caught. A blind tiger or bootlegging is a menace to the young manhood and older citizenship of any county or community. They should either voluntarily quit or be made to quit by the righteous hand of the law.

TICKET NOMINATED BY THE PROHIBITIONISTS

Louisville, Ky., May 29.—Members of the Prohibition party assembled nearly forty strong in State convention at Trinity Methodist Episcopal church here yesterday and nominated a full set of candidates for State officers, with the proviso that the head of the ticket would be withdrawn if either of the two dominant parties nominates a State-wide candidate who will run on a State-wide platform.

The list of nominees follows: Governor, the Rev. Andrew Johnson, of Wilmore; Lieutenant Governor, Col. T. B. Demaree, of Wilmore; Treasurer, Adam Carpenter, of Moreland; Auditor, M. L. Moore, of Franklin; Secretary of State, Mrs. Frances E. Beauchamp, of Lexington. Col. Demaree was elected State chairman, to succeed Mrs. Beauchamp, and C. A. Singer, of Louisville, was elected secretary.

The platform adopted puts the party on record as favoring a single term of six years for President of the United States, the initiative and referendum, and the granting of the rights of suffrage to women. Of course the platform reaffirmed the stand of the party in favor of prohibition of the sale and manufacture of alcoholics.

Hon. H. V. McChesney, A State-wide candidate for the Democratic nomination for Governor, speaks at the court house in Hartford on next Tuesday, June 8th, at 1 o'clock p. m. You are cordially invited to be present and hear this most worthy speaker ably present the important issues of the day. Ladies are especially invited.

BARRETT'S FERRY.

June 1.—Mrs. Susan Mary Gentry has in her possession a freak calf which people for several miles around have gone to see. The calf is several days old and as strong, healthy and playful as any calf of its age, but it hasn't any hair except around its hoofs, and on the tip of its tail. It would be a valuable addition to any circus.

Rev. and Mrs. W. H. Foreman, of Hartford, after attending Decoration services at Fordsville, are visiting relatives here. They will return home to-morrow.

Misses Clara Smith and Eugenia and Ernie Boswell attended commencement at Beaver Dam. They returned home last Monday.

Several from this vicinity attended the Sunday school convention at Huff's Creek church yesterday. All report a splendid program and a good dinner.

Mr. L. Barrett has been ill of stomach trouble for the past few days. He is better at this writing.

(District Politics.) Judge Birkhead Circulated Petitions Two Years Ago.

The Democratic party is responsible for the present primary election law in this State. The great mass of the votes cast by this party are unpurchasable. Its members believe in fair elections and will not tolerate unfair methods or means, tending to defeat the will of the people. While the fundamental principles of this party and its time-honored precedents still stand, the personnel of the party continually changes. Death reaps each year his toll from its ranks and others necessarily must take the places of those called away.

Twelve successive years is no small period in the average life and during this period of time many changes have taken place in the ranks of this great party. Many of its members who were actively at work in its ranks twelve years ago and who are still loyal to this party, its principles and its precedents remember that Judge T. F. Birkhead promised them, as he did when again a candidate six years later for the office he now holds, that he would not be a candidate for this office for the third term.

He was given the nomination at the hands of the Democratic party six years ago without opposition and the people then believed an endorsement due him and hence no opposition was offered against him in the final election. The question now being debated by many of the Democrats in this district is whether or not Judge Birkhead then, when he last made the promise to the people not to be a candidate for the third term, was acting in good faith and really meant to keep his promise. Subsequent events tend to prove he did not. Immediately on his induction into office he commenced to flood the district with various printed circulars, calling the attention of the people to his administration. It was thought by his friends that he purposed becoming a candidate for Appellate Judge. No one then suspected that he intended to be a candidate for the third term. Later and more than two years in advance of the time for the election, and before the proper time for anyone to offer as a candidate for the Democratic nomination to succeed him, it appears he attempted to take snap-judgment and to procure many voters in the district to sign type-written petitions which were caused to be circulated throughout the district by himself and others directly interested in his election. These petitions endorsed his administration and incidentally requested the Judge to become a candidate to succeed himself. This was apparently done in an attempted effort to justify his act in violating his promise to his party, and failing to keep faith with the people. He did then as he does now, hold an official position which requires him to pass judgment on the lives, liberties and property rights of every person requested to sign these petitions, if called in question by legal process in any of the Circuit Courts of this district. These petitions were all premature and there were then no announced candidates for the Democratic nomination to this office. It was not then the proper time for the announcement of candidates. No issues were joined and the people were asked for an expression of an opinion more than two years in advance of the time when they might exercise their choice. Some signed these respective petitions without knowing the purposes for which they were being circulated, and many signed them simply intending to compliment the Judge on his administration. No one who signed one of these petitions should

feel obligated or honor-bound to support Judge Birkhead in the coming August primary. No man is honor-bound where another has attempted to forestall his judgment by artful scheming, and these petitions, it now develops, were being circulated to keep down opposition and to cause those, or as many of them as possible, signing these petitions to feel obligated on this account to support Judge Birkhead for the nomination in this race and thereby prevent the people from exercising their right to a free and fair choice in the selection of the candidate for the Democratic nomination for this office.

It is equally as important that the people feel themselves free to choose between candidates when the proper time comes for them to offer for office as it is to require candidates elected by the people to office to keep their promises made to the people before their election to office. We think two terms of six years each, is enough for any one man. Judge Birkhead promised the people before his election that he would not be a candidate for the third term, and, having served two terms, we think he should give way to a man who is thoroughly competent and in every way worthy and well qualified for the position of Circuit Judge.

The voters of this district would honor themselves while honoring Judge J. S. Glenn by casting their votes for him for the Democratic nomination for Circuit Judge.

Rev. T. C. Wilson, formerly pastor of the Cumberland Presbyterian church here, but now of Louisville, is spending a few days in Hartford. Bro. Wilson is here in the interest of his Louisville charge.

James Payton, of near Friedland, was brought to Hartford Monday, a jury empaneled and he was adjudged to be of unsound mind, and ordered to be conveyed to the Hopkinsville State hospital.

Our Sheriff, Mr. S. O. Keown, who attended the National Sheriffs' Association, held at Cincinnati, Ohio, from May 25th to 28th inclusive, reports a most pleasant trip, from which much benefit was derived.

Mrs. Viola Farris, of near Olaton, was brought to Hartford yesterday under a lunacy charge. A jury was empaneled and she was adjudged to be of unsound mind and ordered to the hospital for the insane at Hopkinsville.

A singing convention was held at Bada last Sunday, when a large crowd was present, despite the rather inclement weather. There was splendid singing and plenty of dinner for all. The next singing will be at Bethel church, near Horton, the 5th Sunday in August.

Mr. and Mrs. F. L. Felix and Mr. J. T. Felix visited relatives and friends at Greenville, Ky., from Saturday until Monday, when Mr. J. T. Felix returned to Nelson, Ky., where he will visit his son, Dr. C. W. Felix, for about two weeks. Mrs. Felix will also visit relatives and friends in Greenville and Louisville about two weeks before returning home.

Mr. G. L. Taylor, U. S. Post-Office Inspector, was here Friday and "checked up" Postmaster R. B. Martin, for the first time since the latter has been in the local office. Mr. Martin's accounts were found to be strictly O. K. and some ahead as to finances. The report was therefore quite satisfactory. Mr. Martin is proving to be one of the most efficient and accommodating postmasters the Hartford office has ever had.

Through the courtesy of Mr. Stovall, the genial jailer at Greenville, we were shown through the new jail while, on a week-end visit at that place. This jail is said to be the second best in the State. The sanitary arrangement is of the very best and it is so constructed that though you have the keys the prisoners cannot be reached except you have first been instructed as to how to use them. There are now 18 prisoners, 16 white and two colored, confined there.

Judge J. S. Glenn, who spent last week in Daviess and McLean counties, is very much pleased with the progress of his canvass for the Democratic nomination for Circuit Court Judge of this district. The promise, often repeated by Judge Birkhead, that he would not ask for the third term as Circuit Judge, is having telling effect in behalf of Judge Glenn. This together with the fact that Ohio county has put forth a candidate for this important place who is well qualified for the position and it being conceded by the other three counties of the district that it is Ohio county's time to furnish the Circuit Judge, will no doubt give Judge Glenn this nomination.

ESTIMABLE YOUNG MAN PASSES TO HIS REWARD

Mr. Almond Tinsley died very suddenly at the residence of his father, Mr. O. R. Tinsley, in the Washington neighborhood, 5 miles north of Hartford, Tuesday night of last week, about 10:30 o'clock. Lockage of the bowels or appendicitis was the cause of his death and he was ill only about 24 hours. Medical aid was summoned at the start, but it was soon seen that his case was desperate and it continued so until the end.

Funeral services were held at Alexander schoolhouse Thursday morning at 10:30 o'clock, a short but touching sermon being delivered by Rev. Ely Wesley. Young Tinsley was a Maccabee and the members of the local tent, together with their brother Sir Knights of the country, attended the funeral in a body. Altogether there was a large crowd present. The ritualistic burial service of the Maccabees was gone through with in a very impressive manner. The following young lodge comrades of the deceased acted as pall bearers: Harold Holbrook, Herschel Ross, Clifford Moore, E. Y. Park, Allison Barnett and Estlin Barnett. The floral offerings were beautiful, the large K. O. T. M. emblem being supplemented by pretty designs from neighbors and friends.

Young Mr. Tinsley would have been 20 years old in a few days. He had been a member of the church for several years, was well liked by all who knew him, and was an exemplary young man. Lodge resolutions will be found on page 6 of The Herald to-day.

"DEVIL ANSE" HATFIELD IS CRITICALLY SICK

Charleston, W. Va., June 1.—Anse Hatfield, leader of the Hatfield clan in the famous feud with the McCoy family of Kentucky and West Virginia and known the country over as "Devil Anse," is critically ill at his home in the mountains of Island creek, Logan county, according to reports received here.

Since the feud ended about twelve years ago, Hatfield has been active in the pursuit of farming. Less than a year ago he came here to enter vaudeville, but after appearing several times at a local theater he found that an old Federal Court order prohibited him from leaving the State, so he returned to his cabin home.

SOME REMINISCENCES OF THE CIVIL WAR DAYS

How the Soldiers Amused Themselves On Board a Steamboat.

When General Bragg moved from the South into Kentucky, he left the old Orphan Brigade in Mississippi with orders to follow and join him in Kentucky by way of Cumberland Gap. The Brigade moved by way of Meridian, Miss.; Mobile, Ala., and Knoxville, Tenn., but left some of the boys in Mississippi.

Later a Lieutenant was ordered to gather all the boys that were able to do duty, arm them and join Bragg's army in Kentucky. The writer happened to be one of the number that was mustered under the Lieutenant and about 200 of us pulled out from Jackson, Miss., to Meridian a-foot.

From Meridian we took the old M. & O. R. R. for Mobile, and after some delay we were put aboard of a river steamer bound for Montgomery, Ala. We had scarcely entered the mouth of the Alabama river when alligators began to show up, some swimming with their noses just above the water and some of them on the banks at the water's edge.

These were the first 'gators many of us every saw and as we were well armed with Enfield rifles, and had about 40 rounds of ammunition to each man, it was a case of "Johnny, get your gun" right there. The firing sounded like a heavy skirl with the Yanks, but it did not last long. The Lieutenant ordered "cease firing" and then sent out orders forbidding any more of it. The boys were disappointed, but not discouraged. They then proceeded to fix bayonets and laid down on the outside guard of the boat and watched for a 'gator to show up. When he did he got a jab with a bayonet that made him sink instantly, but one of the boys got excited and made a lunge at a big 'gator, missed him, lost his balance, dropped his gun, and went overboard. The alarm was sounded, the boat stopped, a yawl launched, and the Reb was hauled in. When asked if he lost his gun he said: "I did, and came near losing a Reb."

That put an end to that piece of fun, and the boys began to look around for amusement. One of them climbed up the guy-rods to the smokestacks and seated himself on the cross rods between the stacks. He was taking in the landscape generally when the pilot rang the Captain's bell. The Captain came on deck at once. The pilot pointed to the Reb in the air, and said that it was necessary to have that piece of athletic humanity moved at once, as he was obstructing the view of the channel and might cause a wreck of the steamer. The Captain peremptorily ordered the boy down, but he only turned into a more comfortable position and told the Captain to go to that place with a short name and a hot climate. The Captain then called on the commanding Lieutenant and he ordered Johnnie down. Johnnie saluted promptly and proceeded to obey orders, as was the habit of all well drilled Rebs.

Such incidents as these went toward keeping up the spirits of battle-worn veterans.

HE DRIVES AWAY SLEEP WITH A NEW DISCOVERY

St. Paul, Minn., May 29.—Sleep will not be necessary if the discovery by Dr. Walter Bradford Cannon, professor of physiology at Harvard University and a former resident of St. Paul, proves to be practical.

Dr. Cannon says he has discovered a substitute for sleep. He has

found, he says, that physical fatigue which heretofore has needed sleep and rest to banish, can be overcome by the use of a substance called adrenin, which exists in the human body and also can be obtained from sheep and calves.

According to Dr. Cannon, experiments have shown that a little of this adrenin will accomplish in less than two minutes, more than two hours of rest accomplishes.

DEATH OF AN ESTEEMED FORMER HARTFORD CITIZEN

News has reached the office of The Herald of the death of William Ely Townsend at his home near Cobden, Union county, Ill., on the 6th day of May, 1915, at 1 a. m., aged 64 years, 7 months and 25 days.

Mr. Townsend, the only son of the late Judge John C. Townsend, was born on the 11th day of September, 1850, at Hartford, and continued to reside here until he, with his family, which at that time consisted of his wife and four children, moved to Cobden, Union county, Ill., in the year 1882.

When a young man, Ely, as he was commonly known in Ohio county, studied law in the office of his father, was admitted to practice law and did practice in Ohio county until he removed to Illinois. He was well educated, talented and attractive and as the years rolled by he lost none of his many likeable qualities. Those of his friends of former years will hear of his death with sadness and will long remember the genial disposition of him who has so recently departed.

Mr. Townsend was married in 1875 to Miss Margaret Elizabeth Sutton, daughter of I. C. Sutton, deceased, at her home near Dundee, Ky. To this union were born seven children: John C., who died when a lad of 13 years in 1888; Lucy C., wife of T. J. Morton, formerly of Hartford, but now of Evansville, Ind.; Alice, wife of P. A. Peterson, of Browning, Mont.; Fred W., of Corpus Christi, Tex.; Russell E., now residing and practicing law at East St. Louis, Ill.; Richard W., who died October 4, 1912, at Cobden, Ill., at the age of 25 years; Albert E., who resides with his mother on the home place at Cobden, Ill.

The deceased was a Democrat throughout his life and as such gained prominence throughout Southern Illinois as a councillor in his party, and was always held in the highest esteem by the leaders of that great party. Democracy could always depend on him and when the party went to defeat he never wearied. After moving to Illinois he never followed the practice of the law, but pursued the occupation of farming and surveying. He knew where every established cornerstone in Union county was, and his opinion in law among the surveyors in Illinois. He was elected County Surveyor of Union county, Illinois, in 1890, and with the exception of four years, continuously held that office until he died. He loved surveying and spurned the suggestion that he aspire to any other office.

The funeral services were held at the home on the 7th day of May, 1915, at 2 o'clock p. m., and just as the sun sank behind the western horizon of Union county's beautiful hills, which he loved and knew so well and over which he had so often tramped with his transit, the body was lowered to its last resting place beside his two sons, to await the summons of the great day, when he shall know that the needle of the Compass of Faith has pointed true, and the chain of rectitude and right has correctly measured from earth to the Corner Stone of the Eternal Kingdom of God.

INVENTOR MARCONI IS ORDERED BACK TO ITALY To Help His Countrymen Fight In War—"Enemies" Shake Hands.

New York, May 21.—William Marconi, inventor of the wireless telegraph, who came here from Italy to testify in the suit involving Marconi wireless patents, announced to-day in the Federal Court in Brooklyn that he would have to sail to-morrow morning for Italy, with his testimony not yet given, because of the imminence of war between Italy and Austria. Mr. Marconi said he had been ordered to return home by the Italian Ambassador at Washington. When court convened to-day Mr. Marconi's counsel read, in behalf of the inventor, the following statement:

"While war has not yet been declared it is clear that it will be within a few hours. As the result of a talk with the Italian Ambassador, I have been ordered to return at once to Italy and it will be necessary for me to sail to-morrow morning."

Court was adjourned and Justice Veeder, descending from the bench, shook hands with the inventor and wished him bon voyage. Counsel on both sides, litigants, and even opposing witnesses, followed suit. Among these witnesses was Johann Senneke, professor of physics at Lelaps University, who had left his command in Germany to testify against Mr. Marconi.

"As war has not yet been declared," Prof. Senneke said, "we are not yet enemies. We can still shake hands and I wish you a pleasant trip across."

Court and counsel began the day with a first-hand impression of the manner in which the big wireless plant talks across the Atlantic with the station at Mauen, Germany. This impression was gained yesterday afternoon and last night, when Judge Veeder transferred court to the receiving and transmitting rooms at the plant were converted into court rooms and the Judge and lawyers listened to the transatlantic exchange of messages. The suit involves the validity of patents under which the Sayville plant is operated.

RESOLUTIONS OF RESPECT.

At a call meeting of Hartford Tent No. 99, Knights of the Macca-bees, May 26, 1915, it was made known that our brother Sir Knight, Almond Tinsley, had passed away a few hours before and among the other attentions to the sad event of his death, a committee on resolutions was appointed who beg to report as follows:

It is with a universal feeling of sorrow which pervades the whole of Hartford Tent No. 99, that we learn of the death of our brother, Sir Knight Almond Tinsley, who was bound to us in ties of brotherly love and highest esteem—that type of knightly honor which is a bond of fellowship among all the Macca-bees. Realizing this fraternal relation, be it

Resolved, By Hartford Tent No. 99, that we herewith express our profound esteem and tender love for our departed brother which prevailed in our hearts while he was yet living, and which has its sad counterpart in the deep sorrow we feel at his taking away. We know he was a true Maccahee, and realizing this, we are confident he felt the ardent fellowship of its province as a fraternal order, enjoyed its meetings and took with him to that Great and Supreme Tent above pleasant memories of his tent associations here, in the same measure that we enjoyed his splendid comradeship.

Resolved, That in honor and memory of our departed brother, we meet in a body and attend his funeral, observing the ritualistic form of the order in the services, that our charter he draped in mourning, that we put flowers upon his grave as a token of our fraternal love and the eternal spring-time which he is now enjoying, and that our membership wear the usual badge of mourning for the stated period.

Resolved, further, that a copy of these resolutions be presented to the family of our deceased brother, a copy be preserved in the records of our tent and same be printed in our Hartford papers.

Respectfully submitted,
C. O. HUNTER,
W. C. BLANKENSHIP,
HEDER MATTHEWS,
Hartford, Ky., May 26, 1915.

How Did He Know?
The new curate had preached a very fine sermon that morning on "Married Life." Two old Irishmen

who had been fast friends for years were discussing the address as they walked home together.

"It was a fine sermon his reverence was after givin' us this mornin'g, Tim," commented one.

"It was that," quickly assented the other, then with a dissenting frown he continued, "an' I wish I knew as little about the matter as he does."—[National Monthly.]

The June American Magazine.

In the June American Magazine Ellis Parker Butler tells an exceedingly funny boy's story. It is entitled, "The Son and Father Movement," and it narrates the amusing adventures which a father had with mosquitoes, and other physical discomforts, when he decided to spend the night with his small son in order to keep on intimate friendly terms with the lad. The climax of the story produces a big laugh. Other fiction is contributed by Walter Pritchard Eaton, who tells the first of a new series of love stories; Rebecca Hooper Eastman, whose story is entitled, "Their Second Meeting;" David Grayson, who goes on with his serial "Hempfield;" and George Fitch, who writes a love story of 1921 entitled, "Cupid vs. Geography."

Humorous contributions are made by James Montgomery Flagg and Edwin L. Sabin. The latter describes "A Cold in the Head." The interesting People department contains five short articles and some wonderful portraits.

The prize-winning letters in the contest, "The Meanest Thing I Ever Did," complete an issue of rare liveliness and entertainment.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill."

I wish every suffering woman would give

FORMER HENDERSON MAN

IS HELD BY THE BRITISH

Henderson, Ky., May 22.—Business associates and friends of O. H. Bernhardt, manager of the American Nicotine Company, have been unsuccessful in their efforts to have him released from a German detention camp in London so that he may return here to continue his duties.

Last August Mr. Bernhardt was summoned to his native land. He was a lieutenant of a German reserve regiment. He was captured by English troops at Gibraltar and held a prisoner in the fortress there until two months ago, when he was sent to the detention camp in London.

His business associates here petitioned English military authorities to release him so that he may return here, promising that they would stand sponsor for him to remain in Henderson until the European war was closed. The petition and promise had no effect on the authorities there, as they responded by saying that no Germans in detention camps will be released as long as the war continues.

Mrs. Bernhardt followed her husband two weeks later, but was not molested and is now at her home in Berlin.

PRESENT CRISIS LEGACY OF 1815

Italy's Troubles Are Of
Long Duration.

WHAT NAPOLEON ONCE WROTE

For Many Years, More or
Less, Austria Has Dom-
inated Italy.

ITALY FIGHTING FOR FREEDOM

The crisis in Italy is a legacy of an event of a century ago. The Congress of Vienna in 1815, dominated by Austria, left the Italian peninsula in a state of unstable equilibrium which still exists.

From St. Helena Napoleon wrote: "Italy, isolated between her natural limits, is destined to form a great and powerful nation. Italy is one nation; unity of language, customs and literature must, within a period more or less distant, unite her inhabitants under one sole government. And Rome will, without the slightest doubt, be chosen by the Italians as their capital."

Yet the eminent gentlemen who controlled the Congress of Vienna saw nothing in this. They did not even attempt a loose confederation. Italy was divided into 10 States, each one too small to have any influence, and all of them under the domination of Austria. That monarchy was given outright the richest part of the Valley of the Po. Austrian Princes and Princesses were installed over the little kingdoms of Northern Italy and the King of Naples was induced to make an alliance with Vienna that made his kingdom a subsidiary province.

For nearly a half century this condition continued, with Italy only a name, and with Italians virtually ruled by Austria.

Then the rising tide of nationalism inspired by Mazzini and Garibaldi and guided by Cavour beat back the Austrian lines. In a two months' campaign with France as ally Sardinia defeated Austria at Magenta and Solferino, and the nucleus of the modern kingdom of Italy was formed. Central Italy shortly joined Sardinia and the uprising in the south under the leadership of Garibaldi completed the unification of the peninsula with the exception of the papal territory of Rome, which was added during the Franco-Prussian war.

Austria, however, still retained its old Italian holdings of provinces adjoining the new kingdoms, and for the last 40 years there has been a movement in Italy for "redeeming" the Italian lands still under

Austrian domination. This movement is what is known on the continent as "Irredentism," the movement for regaining "Italia irredenta," "Italy unredeemed."

The war party of 1915 has built on the foundation of irredentism which was laid by the diplomatists who thought they were settling everything so snugly at Vienna after the downfall of Napoleon.—[Kansas City Star.]

BOSWORTH HAS MADE A
VERY EFFICIENT OFFICIAL

No one will be unfair enough to say but that Mr. Bosworth has made the State a most excellent Auditor of Public Accounts; that he has been weighed in the political balance and found not wanting. As a member and chairman of the State Board of Valuation and Assessment he stood like a stone wall for the people's rights against corporate greed and wealth; as State Treasurer he made a most excellent official. In fact, wherever duty has called this excellent and courageous Democrat; he has always bared his breast to the front of the army and always acquitted himself with honor, as well as reflecting honor and credit on the State. He is, indeed, a clean-handed and open fighter and an honorable, upright public official. If nominated and elected, he will make a model Governor."—[Anderson News, Advertisement.]

LADIES OF MACCABEES
HAD A GREAT MEETING

At the national meeting of the Ladies of the Maccabees in New York last week, Miss Bina M. West, the founder of the Association, had an excellent report to present. The net gain from May 1, 1909, to May 1, 1915, has amounted to over 40,000 benefit members, which indicates the prosperous condition of the Association, and the net gain for 1915 to date is 5,000 benefit members.

During the last four years the interest earnings on bond investments amounted to \$1,058,275.75, and the assets on hand to protect contracts reached nearly eight and a half million dollars. Over twelve million dollars was paid out in death and disability benefits, every draft for which was personally signed by Miss West. This order is not connected in any way with The Ladies of the Modern Maccabees.

Local officers and members are elated over the progress of their work, and when their representatives return, a full report will be given by them of the features of this progressive meeting. The success which this Society has attained is attributed to the harmony and co-operation existing in the individual organizations of which there are nearly 3,000.

DR. WILLIAM M. FORMAN
DIES OF HEART DISEASE

The Louisville Courier-Journal of May 24 says:

Dr. William Marion Forman, 65 years old, died of heart disease at the home of his son, William Marion Forman, Jr., a salesman of the J. E. Speed Co., at 304 Shawnee drive, yesterday afternoon at 5 o'clock, after an illness of six weeks.

Dr. Forman was at one time deputy Internal Revenue Collector in Nelson county and participated in many raids on moonshine stills. He was also a member of the State Board of Pension Examiners. He is survived by his wife and two sons, George W. and William M. Forman, Jr. The body will be taken to Cox's Creek, Ky., to-morrow morning for burial in the Forman private cemetery.

Note—Dr. Forman and family were for years residents of Hartford and he and two sons were owners of the Green river and Rough river packet "We Three," which burned on Green river. Dr. Forman and his family have many friends here who will be grieved at his death.

HIGH OFFICIALS TAKING TANLAC

Judges, Mayors and Prominent
Business Men Try Pre-
mier Preparation.

Lexington, Ky., May 31.—"I have sold Tanlac since the beginning of its introduction in Lexington, to the Mayors of a number of cities, County Judges, Circuit Judges, and to many of the most prominent business men and professional men in Kentucky," said Wm. E. Stagg, the Lexington druggist.

"The demand for the preparation has been phenomenal. In all of my twenty years' experience in the drug business I have never seen anything to equal it."

"In addition to the Lexington demand, Tanlac has been shipped from my store to Kansas City, Mo.; Colorado Springs, Colo.; Denver, Colo.; Memphis, Tenn.; Meridian, Miss.; Bonnulla, S. D.; Pittsburg, Pa.; Jacksonville, Fla.; Louisville, Ky.; Tiffin, Ohio; Cincinnati, Ohio; Columbia, Tenn.; Palm Beach, Fla.; Phoenix, Ariz.; Los Angeles, Cal., and many other points too numerous to mention. You may rest assured that every city in Kentucky also has heard of Tanlac."

"I can only account for the great demand for this preparation by the fact that it is a good medicine. That is proved by the numerous statements from those who have tested the medicine and are now convinced of its excellent merits. The public has evidently not been slow to appreciate the Tanlac merit."

"Practically \$20,000.00 worth of Tanlac has been sold and distributed through my store within the past few weeks. Such a demand is most certainly unprecedented."

"My associations with Mr. Cooper and the agency for Tanlac have been very pleasant. I therefore take pleasure in commending Mr. Cooper and his very excellent preparation."

Tanlac, the premier preparation, is on sale in Hartford at the Ohio County Drug Co., where it is being introduced here, also by Z. Wilbur Mitchell, Beaver Dam, Ky. Advertisement.

A BREAK WORSE THAN THE TEDDY-TAFT AFFAIR

In 1912 Now Threatens the Republican Party—East
Against West.

Washington, May 29.—A break has come between the two leading branches of the Republican party over the National Republican Publicity Association, headed by former Senator Jonathan Bourne, of Oregon. In a prepared article, given out to-night by friends of Representative Frank Woods, chairman of the Republican Congressional Committee, the Bourne association is bitterly attacked as an organization formed to evade the campaign publicity law, and the statement is made that "a breach equal to that which culminated in the terrible upheaval of 1912 again endangers the Republican party."

This article reveals a number of inside facts about the organization now in progress between the Cummins-Borah Republicans, and from its bitter tone and the savagery of its accusations against the National Republican Publicity Association, one is led to suppose that the Western branch of the party is prepared to engage in another death-struggle with the Eastern branch. If the Republican Congressional Committee follows up the attack it seems likely that, with Roosevelt out of consideration, President Wilson will profit by another Republican division in 1916 and be as easily triumphant as he was in 1912.

OLATON.

May 31.—The recent heavy rains have retarded corn planting and much of the corn planted in the low lands will have to be planted over. Very little tobacco will be planted here. Everything bids fair for a good wheat, corn, grass and potato crop. Gardens never looked better. Prospect for fruit crop is good.

The soldiers' graves were decorated at the Canan graveyard last Saturday. There was a good crowd present despite the weather.

The unveiling of the monument to James Tom Felix, by the Woodmen, will take place at the Olaton

graveyard Sunday, June 6th, at 2 o'clock p. m.

Mr. C. D. Bean and the Misses Saltzman attended the decoration exercises at Owensboro Sunday.

Miss Polly Coleman will leave for San Antonio, Texas, Wednesday to visit her brother, Mr. W. D. Coleman, and uncle, Mr. Stonewall Coleman.

Card of Thanks.

We wish to thank those of our neighbors and friends who were so kind in their attentions and ministrations during the recent illness and death of our beloved daughter Audrey. May God bless you always and may you always receive in the fullness of its real meaning that kindness through life which you so willingly bestowed upon us.

MRS. JENNIE MILNER,
Rockport, Ky.

Lucky Edward.

Evansville, Ind., May 26.—Edward Bunge, a mussel digger, to-day found a pearl in the Ohio river a few miles below here. Local jewelers say the pearl is worth from \$500 to \$1,000.

KILLING AT BLIND TIGER FAMOUS FOR KILLINGS

Jellico, Tenn., May 29.—One man was killed and two probably fatally wounded to-day at Trace Branch, a few miles east of here, when Deputy

Sheriff Joe King and Special Deputy James Pennington attempted to raid a blind tiger. A battle occurred between the officers and the proprietors of the place, William Lowe and Sam Smith, in which Lowe was killed and King and Pennington perhaps mortally wounded. Smith made his escape.

Six men have been killed at this blind tiger on Trace Branch during the last six months, and more than twenty during the last ten years.

A MOVE FOR FEDERAL AID FOR ROAD BUILDING

Middlesboro, Ky., May 29.—J. Frank White, of Cumberland Gap, Tenn., was here to-day and is making an effort to perfect an organization that will ask Congress to appropriate as much for road improvement as is appropriated for rivers and harbors. It is his purpose to start such an organization in every inland town in Tennessee and Kentucky, believing that with this impetus the move will spread to other States.

The Fly Question

Remember the time of the year is now at hand that you should make a fight against the pesky fly and mosquito. Both of these "critters" are very filthy and poisonous. Therefore, it is necessary to guard against them as much as possible. The best way to do this is to call on Dexter & Vincent, Centertown, and get a supply of Screen Cloth and Screen Doors, Hinges, Springs and Anti-Sags. We carry a full line and sell them worth the money.

Also handle a nice line of Roofing ranging in price from \$1 to \$2. The \$2 goods is fine as can be, the \$1 Roofing will keep you dry (when it isn't raining).

Remember you take no risk in buying an O. K. Stove from us. We put them in your house and guarantee every one to give satisfaction. In case it doesn't give satisfaction WE take it out and put in a new one. But the latter is a job we have never had to do.

Give us a trial.

DEXTER & VINCENT,
Centertown, Ky.

Have you ever taken advantage of one of

The Anderson "Loom-End" Sales?

No? Well, That's Strange!

Thousands of people throughout these six "Green River" Counties lay in their chief supplies twice a year at these Sales. The values are something wonderful. It requires nearly 100 extra sales-people to serve the people who come by, rail and other conveyances to attend these Sales. Suppose you try the one commencing

Thursday, June 10

It will be one of the best the house has ever had. The bargains are going to be startling. You'll be surprised to see how cheap goods can be sold, when handled in great quantities and quick sales.

Attend this one, and you'll wait and watch for them in the future. You'll never allow anything to hinder your attendance in the future.
